7.Lake Improvement Board Report: June 1st will be the first spraying of the lake. The lake is much higher this spring and we have fewer weeds because of the depth of the lake. The water is darker this year, more suspended particles because of the runoff from the rain. The incentive program is still being encouraged to be used, which includes adding or changing seawalls and pumping of your septic systems. Wake boats are being looked at because of the damage they do to the shore and the bottom of the lake. *Please don't put leaves in the lake. **The Goal is to treat the lake less and less.***

Volunteers are needed to take classes for testing the water. Contact Randy for more information.
